

4,048 Square Feet

This particular floor plan is pretty unique. It has our favorite open floor plan with the kitchen open to the dining and great area. A total of three bedrooms and two full bathrooms, all on the main level. The master suite is among the bedrooms on the main floor with a beautiful spiral stair case leading upstairs to the master bedroom loft. Also, upstairs there are two more bedrooms, another full bathroom, an additional guest room or office and another large great room directly over a two-car garage.
