

4,408 Square Feet

Here we have a floor plan slightly different from the others with a large country kitchen and dining are separate from the great room and beautiful fire place. The main floor also has a full bathroom off the kitchen, an office and a completely separate family room right off of the two-car garage. Upstairs are three bedrooms and two full bathrooms that include the master suite. In addition, over the garage, there is an extra bedroom and great room perfect for guests.

- 4,408 square feet total living
